

May 4, 2021

Members of the Pennsylvania General Assembly

Dear Legislators,

We, the undersigned 78 organizations, institutions, and businesses, and more than 1,776 Pennsylvanians, and 1,382 residents of other states, are writing to express our opposition to House Bill 1144 and Senate Bill 534. Among the provisions that roll back rules for conventional drillers is one that would allow for “road spreading of brine for dust control, road stabilization, anti-icing and de-icing.” The current provision goes far beyond the one removed from the last iteration of this industry-friendly legislation, SB790, that would have allowed for the road spreading of brine on unpaved roads only.

The letter below was delivered to members of the Senate in 2019 and resubmitted with hundreds of additional signatures to the House Environmental Resources and Energy Committee on January 13, 2020. The Committee amended the bill to remove the provision that day.

The case we made in our letter is only strengthened by mounting evidence of the adverse impacts of drilling, in general, and the dangerous levels of radioactivity in drilling waste, in particular.

The undersigned environmental advocates and concerned citizens call on you to reject House Bill 1144 and Senate Bill 534.

Sincerely,

Karen Feridun, Founder, Berks Gas Truth, on behalf of the undersigned

Dear Senators,

On October 21, the Senate passed SB 790 by a vote of 26 – 23. The vote was held as soon as the bill left the Appropriations Committee and was conducted without debate. The bill is a controversial one with many concerning provisions, including one that allows for the spreading of brine from conventional drilling on unpaved roads as a dust-suppressant. We, the undersigned, are writing to protest your refusal to follow the established process in a rush to get a win for the industry you have come to believe you represent.

Just last year, a team of PennState researchers published a peer-reviewed study that found that “in Pennsylvania from 2008 to 2014, spreading O&G wastewater on roads released over 4 times more radium to the environment (320 millicuries) than O&G wastewater treatment facilities and 200 times more radium than spill events.”ⁱ

Earlier this year, another study from PSE Healthy Energy that looked at oil and gas waste management from 1991 – 2017 found that about 30 percent of waste came from conventional drilling. Road spreading of waste was first reported in 1995.ⁱⁱ

PA Environment Digest summarized the findings reported by lead author Lee Ann Hill. “The study found 5,725,353 barrels [240,464,826 gallons] of wastewater from conventional oil and gas wells were applied to roads between 1991 and 2017. 97.9 percent of that waste -- 235,415,065 gallons-- remained in Pennsylvania and was spread on roads.ⁱⁱⁱ

“In 2017, approximately 193,000 barrels [8.1 million gallons] of wastewater from conventional oil and gas operations were used for road spreading. This accounted for 0.3 percent of all wastewater generated in 2017, according to Hill.”^{iv}

As you know, the DEP put a moratorium on road-spreading of brine in 2018 as a result of a 2017 Environmental Hearing Board appeal. Then, in May of this year, days after the PSE Healthy Energy study was published, the Pennsylvania Grade Crude Development Advisory Council (CDAC) wrote in its Annual Report , “At public comment at various meetings during the year the presidents of PIOGA and PGCC complained to CDAC about the oil and gas production constraints and the economic hardship suffered as a result of the dwindling number of produced water options.v

“Among other things the presidents of the trade organizations called upon CDAC to direct its efforts to the re-initiation of the brine spreading/dust suppression program suspended by the DEP, but which had operated previously for several decades.”

Our state government has a sad tradition of catering to every whim of the natural gas industry. Among the members of CDAC are Senator Hutchinson, a co-sponsor of SB 790, Senator Yudichak, DCED Secretary Dennis Davin, DEP Secretary Patrick McDonnell, Representative Martin Causer, prime sponsor of HB 1635, a similar measure introduced in the House, and Representative Ryan Bizzarro.

Doing the bidding of the natural gas industry is not your job. You are in Harrisburg to represent the best interests of Pennsylvanians. You are failing us, regularly and miserably. We call on the House to stop both SB 790 and HB 1635. Should they fail to represent our best interests, we call on Governor Wolf to commit to vetoing whichever bill reaches his desk.

Sincerely,
Karen Feridun, Berks Gas Truth
